

HIMANSHU SINGH

Full Stack Developer

@ hpratapsingh72@gmail.com +91-9044515968 Prestige Finsbury KIADB Aerospace, Bagalur, Bangalore
Karnataka, India
linkedin.com/singh-himanshu35

Experienced Full Stack Developer with over 8+ years of experience, specializing in AI, Machine Learning, .NET, and C# technologies. Proven expertise in developing scalable web applications and seamlessly integrating NLP, LLMs, and Open AI APIs. Advocates for clean code, SOLID principles, and Agile methodologies. Demonstrated leadership in mentoring developers, fostering innovation, and delivering cutting-edge AI-driven solutions, particularly within the aerospace domain.

EXPERIENCE

Software Development Engineer

The Boeing Company

July 2019 – Ongoing Bangalore

- Led the development of essential web applications for the Internal Option Manager of airplanes.
- Ensured high availability by providing robust support across Production, Pre-production, and Development environments, significantly minimizing downtime.
- Agile & Stakeholder Management:** Translated complex stakeholder requirements into detailed technical specifications and architectural blueprints for legacy system modernization projects within a SAFe Agile framework.
- Technical Leadership & Quality Assurance:** Reduced post-deployment defects by 25% through rigorous peer programming, code reviews, and comprehensive unit testing. Consistently received client accolades for exceptional performance and on-time delivery.
- AI for Business Transformation:** Led the development of an AI-powered "Smart Business Knowledge Assistant", an agentic AI system built with LangChain, OpenAI (GPT-4), and ChromaDB. This initiative significantly enhanced productivity by providing semantic search and natural language querying capabilities over complex technical documentation, cutting manual research time for engineering and business teams by over 50%. Further expertise includes developing AI Document Search solutions and contributing to AI-driven Threat Modeling projects.

Consultant

Allstate Soln Pvt Ltd.

Feb 2017 – July 2019 Bangalore

- Independently developed MVC.NET projects, significantly enhancing application stability and resolving critical bugs, which reduced resolution time by 30%.
- Mentored junior developers and collaborated with cross-functional teams, improving project delivery efficiency and fostering a collaborative environment.
- Key contributor to the **Express Repair Link (ERL)** project, streamlining repair management processes and achieving a 30% reduction in manual tasks.

SKILLS

Optimistic Persevering

Quick Learner & Leader

C# Python JavaScript .NET 8

.NET Core 3.1 .NET MVC Fast Api

Web API .NET Web Forms WPF

ADO.NET EF Core Stored Procedure

LINQ SQL MS SQL Server

LangChain LangGraph

Large Language Models

OpenAI API (GPT-4)

Prompt Engineering

Docker Kubernetes Azure DevOps

TFS NUnit Visual Studio

PyCharm Git Jira Toad SSMS

SOLID Agile

EDUCATION

Post Graduate Diploma in Advanced Computing

PROJECTS

TPERT - Test Planning Execution and Reporting Tool

The Boeing Company

- Accomplished tasks within assigned durations, maintaining one-time code quality and efficiency.
- Provided critical fixes for Data Scripts and code bugs adhering to proper coding standards.
- Delivered comprehensive application support across Production, Pre-production, and Development stages, earning multiple client appreciations.

IOM-Internal Option Manager

The Boeing Company

- Engaged in a techno-functional role, performing analysis, requirement gathering, and development within a SAFe Agile framework.
- Created project documentation for legacy system analysis and facilitated redesigns using modern approaches.
- Demonstrated strong coding proficiency, conducting peer programming and unit testing to ensure reliability and performance.

ERL-Express Repair Link

Allstate Soln. Pvt. Ltd.

- Collaborated with the business to gather and implement user requirements in the project.
- Performed root cause analysis of existing bugs and resolved them according to required functionality.
- Followed Kanban development using Jira and managed builds and releases as an integration manager.

NextGen

Allstate Soln. Pvt. Ltd.

- Performed root cause analysis to identify system issues and resolved existing bugs as per requirements.
- Successfully decoupled a module from a Legacy application (First Notice of Loss Tool) as an independent requirement.
- Followed the SAFe Methodology for development, ensuring structured and efficient progress.

EXTRA CURRICULAR

- Served as a Mentor in the Learning Ambassador program.
- Contributed to open-source projects, especially those related to .NET development.
- Boeing Asia Pacific LEAD.
- Driving Innovation with AI & ML.

CDAC

📅 Aug 2016– Feb 2017

B.Tech. in Computer Science & Engineering

Dr. A.P.J. Abdul Kalam Technical University

📅 July 2011 – July 2015

CERTIFICATION

- Scaled agile framework- SAFE 5
- Python By O'Reilly Media
- Google Vertex AI By O'Reilly Media
- AI Agents with Langgraph By O'Reilly Media
- Generative AI Developers By O'Reilly Media
- Docker & Containers By O'Reilly Media

INTERESTS & HOBBIES

- Social Anthropology
- Food Nerd
- Reading Books relevant to history and polity
- Joining social, environmental or animal rights groups
